**U.S. Senator Tammy Baldwin Announces Over \$37 Million in New Community Development Block Grants for Wisconsin**

*Baldwin worked to secure federal funds for Wisconsin communities in the bipartisan CARES Act*

WASHINGTON, D.C. – U.S. Senator Tammy Baldwin today announced \$37,286,321 in new federal Community Development Block Grants (CDBG) for Wisconsin communities to rapidly respond to COVID-19 and the economic and housing impacts caused by it. This funding was included in the bipartisan *Coronavirus Aid, Relief, and Economic Security (CARES) Act* that was signed into law last week.

The *CARES Act* included \$5 billion total in CDBG funding. This initial round of funding is being allocated to states and local governments that received CDBG in Fiscal Year 2020. Additional CDBG allocations are forthcoming, including \$1 billion to states to support a coordinated response across entitlement and non-

entitlement communities, and \$2 billion will be allocated to states and units of local government, cities and counties based on the prevalence and risk of COVID-19 and related economic and housing disruption.

“Local officials and the communities they serve need resources to respond to the public health, economic, and housing challenges we face. This federal support will help local communities quickly respond to this pandemic,” **said Senator Baldwin**. “I’ve seen firsthand how Community Development Block Grants help people throughout our state. Now more than ever, this funding is needed for local community development initiatives to support our workers, families and neighborhoods. We are all in this together, so we need to continue working together to get through this public health crisis and move our state forward.”

The following cities and counties in Wisconsin will receive this initial CDBG funding from the *CARES Act*:

- City of Appleton: \$348,255
- City of Beloit: \$384,288
- City of Eau Claire: \$316,591
- City of Fond Du Lac: \$335,496
- City of Green Bay: \$595,446
- City of Janesville: \$286,421
- City of Kenosha: \$655,910
- City of La Crosse: \$518,988
- City of Madison: \$1,160,897
- City of Milwaukee: \$9,574,616
- City of Neenah: \$128,328
- City of Oshkosh: \$494,757
- City of Racine: \$1,108,649
- City of Sheboygan: \$539,956
- City of Superior: \$417,655
- City of Wausau: \$371,608
- City of Wauwatosa: \$594,265
- City of West Allis: \$762,000
- Dane County: \$730,767
- Milwaukee County: \$992,237
- Waukesha County: \$861,236

The State of Wisconsin will also receive \$16,107,955 in CDBG funding to support local communities on the frontlines of this pandemic.

For more than 40 years, the CDBG program has invested billions of federal dollars in communities across the country and helped millions of Americans. The CDBG program fosters job development and provides assistance to neighborhood-based organizations, including community development corporations, in support of economic development, housing assistance, or neighborhood revitalization activities in Wisconsin that are vital to getting through this public health emergency. CDBG funding can be used for the expansion of community health facilities, child care centers, food banks and senior services.

**Subject:** State of Wisconsin Partners: Poll Worker Request

Good afternoon,

Citizen involvement is essential to our election process, and with the potential spread of COVID-19, we anticipate many veteran poll workers who faithfully serve every election day may not serve this year due to their age and high risk to COVID-19 exposure. With as many as 30,000 poll workers needed to support an election, many Wisconsin cities, towns, and villages are looking for volunteers to assist with the April 7, 2020 election. Governor Evers is asking our private, non-profit, and public sector partners to please consider helping their local government election process during the COVID-19 health emergency by encouraging their employees and members (who are able and who are not at high risk themselves) to participate in this election.

Poll workers do everything from check-in voters, help people register to vote, check photo IDs and process absentee ballots. Please click [here](#) for more details from the Wisconsin Elections Commission. Local clerks will provide poll workers with training prior to election day. Please note the Wisconsin Elections Commission and the Department of Health Services are also developing protocols to make the polls as safe as possible for voters and poll workers.

To be a poll worker, a person must:

- Be a qualified elector of the county in which the municipality is located (i.e., an adult citizen of the United States who has resided in the election district for 10 consecutive days and is not otherwise disqualified to vote)
- Be at least 17 years-old
- Be able to read and write fluently in the English language
- NOT be a candidate for any office to be voted on at the polling place at that election.

If you have employees or members who are interested in serving as a poll worker, please have them contact their municipal clerk's office, which they can find on the MyVote Wisconsin website: <https://myvote.wi.gov/en-us/MyMunicipalClerk> . There they can enter their address in the search fields and the system will tell them who their municipal clerk is and provide a phone number and email address. They should put "Poll Worker Applicant" in the email subject line so that their clerk will be able to easily sort the requests.

Please forward this message to your members, employees and others associated with your organization. This is a great opportunity for citizens to get involved with the democratic process.

Thanks,  
ZM

The points are great, and I'm in total agreement. Our push will be less on delay and more on putting the election in the mailbox, requiring vote-by-mail. I just don't see a light at the end of the tunnel, so I don't think delay is a solution, in and of itself. Does that make sense?
